Licence fee calculation

The licence fee calculation is based on the previous year's revenues from music activities or an estimate for the licensed year. The revenues cannot be higher than $15,422.88.

If the annual revenues for a given facility go above the $15,422.88 threshold, you must then obtain the individual licences applicable to each use in that facility.

Music uses other than the ones covered by tariffs 5A, 7, 8, 9, 11A and 19 are subject to an additional licence.
